The world's leading
**ultra-light snap open,
portion packaging solution**

Brad Teys

Chairman

Snapsil patented systems create ultra- lightweight, easy- open portion control packaging that can reduce plastic, reduce waste, and, enhance user experience.

Snapsil reduces plastic by up to 75% and minimizes product waste to improve our planet's environment. With more than 300 million packs produced worldwide, our patented snap-open technology is proven and trusted.

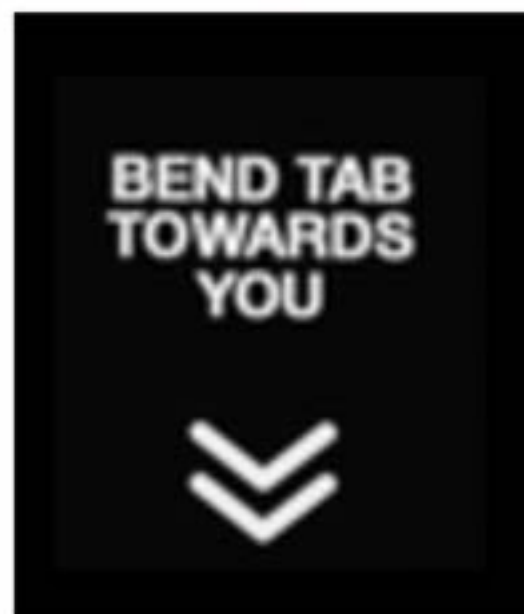

Our Snapsil formats range from 1mL to 200mL and include Squeezable Packs, Snap Sticks, Stand-Up Bottles, and 4-Packs, all designed for ease of use.

With machine systems and bespoke materials developed with our global partners, adoption is simple through rental or purchase options. We also create custom solutions tailored to brand needs.

As we expand, we continue to welcome Resellers and Packaging Partners to join us in shaping the future of portion-control packaging.

SnapSil Formats

SQUEEZABLES

2 - 50ml

Great for thicker liquids, creams and gels. Simply just Snap 'n Squeeze.

A squeezable solution for thick liquids like creams and pastes. Its flexible, user-friendly design means no mess, no waste, just perfect control.

SNAP STICKS

10 - 75ml

The original Snap precision.

The go-to choice for small liquid products that demand easy, controlled dispensing. With its compact, no-mess design, it makes portioning a breeze.

SNAP BOTTLES

15 - 150ml

Stable and neat storage. Just snap 'n pour.

The Stand-Up Bottle makes dispensing liquid and granules effortless. Its upright design provides stability and maximum convenience, whether you're using it at home or on the go.

4 PACK BOTTLES

15 - 75ml

The 4-Pack Bottle is the ultimate in convenience, offering multiple portions in one versatile, eco-friendly package. Ideal for frequent-use products, complementary items, or industrial solutions, it's all about efficiency and practicality in a sleek package.

SNAP TRAY

15-75 ml

The Snapsil Snap Tray improves packaging with its tamper-evident design. Say goodbye to frustrating clamshells. This compact, user-friendly alternative ensures quick, secure access while reducing plastic waste. Perfect for a range of industries it delivers convenience, durability, and enhanced in-store and online product presentation all in one.

SNAP CONTAINERS

Versatile, protective, and ready for retail.

Snapsil Snap Containers offer a sleek, tamper-evident protective solution that's easy to open and secure. With a simple snap-open function, these containers eliminate the hassle of traditional packaging. Customisable to fit your product's needs, they reduce plastic waste and improve your product's retail appeal with premium branding space.

SNAP PACKS (PHARMA)

Precise. Sterile. Hassle-Free.

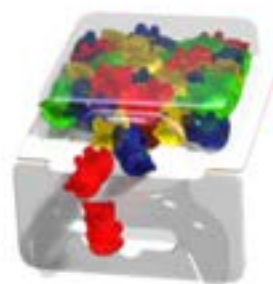

Snapsil Snap Packs for Medical Equipment deliver secure, tamper-proof, single-use dispensing. Designed for healthcare environments, they ensure sterile access, reduce contamination risks, and minimize waste. A smarter, safer alternative to conventional packaging.

CUSTOM RANGE

Tailored to your exact needs

If our ready-to-go packaging designs don't quite fit, no worries, we've got you covered! We can craft solutions tailored specifically to your product's unique needs. Whether it's a specific material, intricate dispensing, or an eye-catching custom shape, we design packaging that enhances both functionality and your brand's visual impact.

Tamper evident thermal seal multi-layer lidding

Application Examples

- Honey
- Sauces and Condiments
- Salad Dressings
- Gravy
- Dips
- Edible Oils

Less plastic, Lightweight

Up to 75% less plastic, compostable solutions available.

Reduce Waste

Perfect portion control for sauces, dressings, condiments and more.

Patented One-Handed Snap Opening

Easy, intuitive opening for effortless dispensing.

Mess-free, Every Time

Smart design ensures every last drop is used with ease.

Food Safety & Integrity

Tamper-evident seals and high barrier packaging protect product freshness and quality.

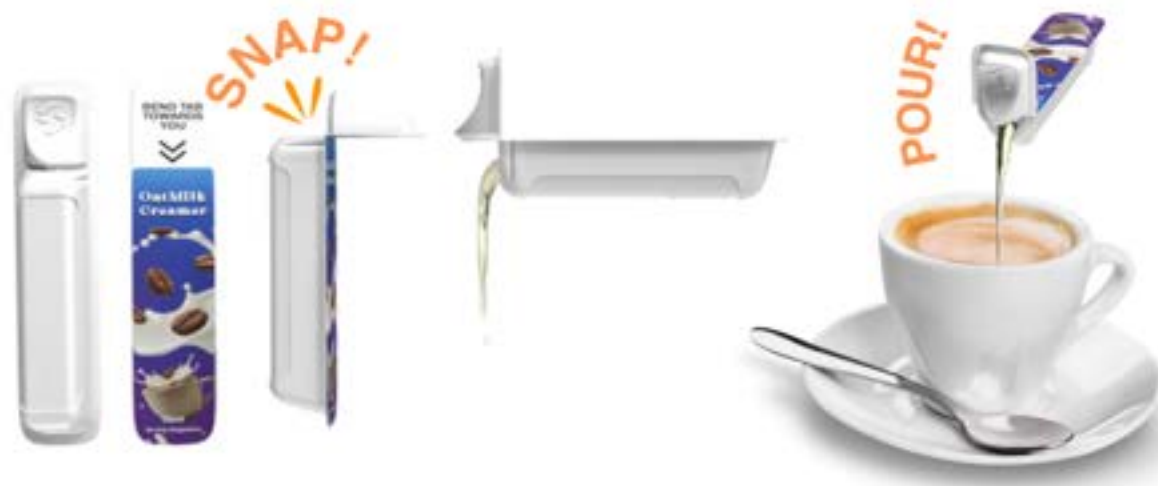

On-the-Go Convenience

Ideal for busy consumers and quick-serve meals.

Beverages

Application Ideas:

- Liquids
- Alcohol Shots
- Drink Enhancer and Mixers
- Creamers
- Sweeteners
- Powders and Granules

Less plastic, lower footprint

Up to 75% less plastic, tethered lid, plus compostable and recyclable options.

Lighter & smarter

Less packaging means lower transportation emissions and a more efficient supply chain.

Responsible drinking

With portion control and standard nip volumes.

Waste-free precision

Perfect portion control for liquid and powdered beverages.

Food safety & integrity

Tamper-evident seals and high barrier packaging.

On-the-go convenience

Ideal for urban living, training and race days, and travel.

Designed for any occasion

From cosmopolitan lifestyles, outdoor adventures to fitness activities and social gatherings.

Nutraceutical

Natural Lip Rest
The contoured bend supports a natural lip seal for comfortable sipping.

Optimized Mouthfeel & User Comfort

Application Ideas:

- Protein Powders
- Supplements
- Pre Workout and Recovery Drinks
- Electrolyte and Hydration Mixes
- Slimming Shakes
- On the Go Nutrition Shots

Waste-free precision

Perfect single-serve control for protein powders, pre-workouts, hydration mixes, recovery supplements, and nutrition shots.

Effortless, one-handed snap opening

Snap, pour, and go. No mess, no spills, no fumbling at the gym, track, or field.

Hygienic & tamper-evident

Sealed fresh for purity, safety, and consumer confidence.

Portable & travel-friendly

Lightweight, compact packs that fit easily in gym bags, lockers, or pockets: ideal for training, competition, or travel.

Lighter & smarter

Less packaging means lower transport emissions and streamlined logistics for nutrition brands.

Custom branding options

Highlight your sports nutrition brand with sleek, sustainable packaging that reinforces a premium, performance-driven image.

Personal Care

Application Ideas:

- Cosmetics
- Skincare Serums
- Creams
- Oils
- Eye drops
- Lip Balms
- Hand Lotion
- Hair Care

Lighter & smarter

Compact design means less packaging, lower shipping emissions, and a more efficient supply chain.

Waste-free precision

Perfect portion control for skincare serums, lotions, powders, supplements, and beauty beverages. No mess, no waste.

Effortless, one-handed snap opening

A patented, one-of-a-kind innovation that makes daily routines seamless, even with wet, oily, or product-covered hands.

Hygienic & tamper-evident

Sealed for freshness, purity, and consumer confidence.

Portable & travel-friendly

Compact packs that slip easily into bags, cosmetic kits, or gym gear for on-the-go beauty and wellness.

Custom branding options

Feature your logo, design, and premium branding for a unique customer experience (bulk orders only).

Household

Application Ideas:

- Laundry Detergent
- Fabric Softener
- Dishwashing Liquids
- Surface Cleaners
- Air Fresheners
- Sanitizers & Disinfectants

Waste-free precision

Perfect portion control for detergents, cleaners, and solutions, minimizing waste while maximizing results.

Effortless, one-handed snap opening

No heavy caps or tricky seals. Snap, pour, and clean with ease for no mess even with wet hands

Portable & storage-friendly

Flat, lightweight packs store neatly in cupboards, drawers, or utility shelves freeing up valuable space.

Airtight & Tamper Evident

Designed to lock in product freshness and safety until you snap it open.

Versatile applications

From laundry to kitchen, bathroom to general home cleaning. Snapsil adapts to every corner of your household

Garden Care

Application Ideas:

- Fertilizers
- Herbicide
- Garden Chemicals

Waste-free precision

Perfect portion control for fertilizers, plant food, cleaning solutions, and more, minimizing waste while maximizing results.

Effortless, one-handed snap opening

Snapsil's patented design makes everyday tasks easier—no spills, no mess, even with wet or gloved hands.

Efficient & Lightweight

Perfect to carry in the field, no measuring tools needed, just snap 'n go!

Portable & Storage-friendly

Compact, lightweight packs that save space in cupboards, tool sheds, or cleaning cupboards

Airtight & Tamper Evident

Sealed tight to keep product integrity and potency until you snap it open.

Versatile applications

From plant care to household cleaning, beverages to outdoor essentials. Snapsil adapts to every corner of your home and garden.

Industrial

Application Ideas:

- Adhesives, Sealant
- Coolants
- Oils
- Industrial Cleaners
- Industrial Chemicals
- Automotive Wash
- and More!

Precise, mess-free, waste-free dispensing

Ideal for concentrates, fertilizers, chemicals, and more.

Less plastic, light-weight, lower footprint

Up to 75% less plastic plus compostable and recyclable options.

Remove customer stress

\Concentrate ratios calculations solved by Snap 'n Dispense portion solutions

Reduced shipping costs

Concentrated packaging eliminates the need to ship large volumes of compounds, reducing transportation and environmental impact.

Two patented snap-release opening designs

One for larger volumes, another for controlled, slower release. Your choice!

Tamper-evident seals, high barrier packaging

Ensures product integrity, user safety and to withstand the toughest environments.

Application Ideas

- Liquid treats
- Gravy toppers
- Supplements
- Shampoos
- Paw balms
- Eye Stain Solutions

Pet-Safe & Secure

Packaging stays locked until opened by an adult – safe from curious paws.

Perfectly Portioned, Mess-Free

No more scooping or measuring each snap delivers the exact dose perfect for your pet needs.

Fresh & Protected

Tamper-proof, tamper-evident, and sealed tight to stay as fresh as the day it was packed.

Portable & Convenient

Lightweight, compact, and easy to carry, perfect for walks, travel, or on-the-go pet care.

Pharmaceutical

We are changing healthcare packaging. We are developing new technologies that enable more useable, safer, and efficient packaging because healthcare packaging should aid treatment outcomes and empower patients, not be a barrier to it.

Our mission: enhance patient care through smarter, more accessible designs.

Why Choose Snapsil?

Effortless Access - Our patented fracture-path and snap-open designs dramatically reduce dexterity and strength needs. Perfect for users with limited mobility or fine-motor challenges.

Safer Handling - No-touch dispensing and multidimensional safety features minimize contamination and enhance user safety

Eco-Consious Efficiency -Reduce plastic use, lighten shipping loads, and strengthen branding, all without compromising quality or security

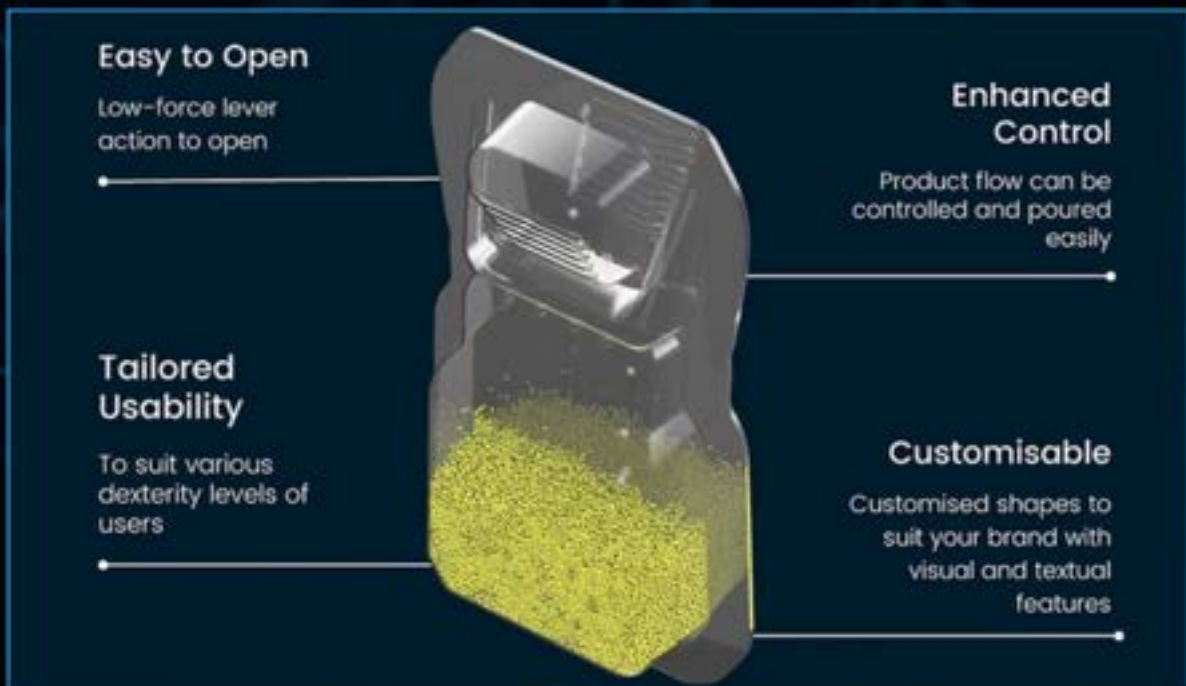

The future of easy-open Pharmaceutical Packaging

How Snapsil Technology Works

Snapsil's patented design uses a defined fracture pathway for packaging that's intuitive, safe, and easy to use. With a simple snap, the pack opens cleanly along guided lines, requiring less dexterity and strength than traditional packs.

This unique approach reduces contamination risks, improves medication access, and supports better patient adherence.

Key Features

Learn more at www.snapsilpharma.com

Pharmaceutical

Solid Dose

Tablets \ Capsules

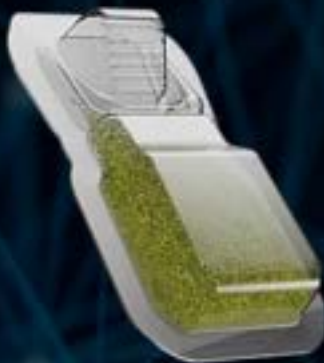

- No touch dispensing.
- Lowers dexterity required for pack usage.
- Enables control of tablets upon opening.
- Requires minimal fine finger movements and reduced grip strength to open our packaging formats, making them more user-friendly and easier to use.

Liquids Dose

Liquids \ Suspension

- Reduces the dexterity required for pack opening.
- Provides enhanced dosage control versus sachets.
- Dispensing rates from free pour to individual drops.

Powder Dose

Powders \ Granules

- Easier handling and dosage control of powders.
- Reduces the dexterity required for pack operation.
- Visibly see the power inside the pack.

Intrafuze Oral

Mixing \ Reconstitution Oral

- Reduces the number of preparation steps and componentry required for drug reconstitution.
- In-pack reconstitution provides sterility and safety advantages.
- Pre-measured ingredients reduce risk of error by clinicians and self-care patients.

Intrafuze Injectable

Mixing \ Reconstitution - Injectable

- Reduces the number of preparation steps and componentry required for drug reconstitution.
- In-pack reconstitution/mixing provides sterility and safety advantages.
- Pre-measured ingredients reduce error risk of clinicians and self caring patients.

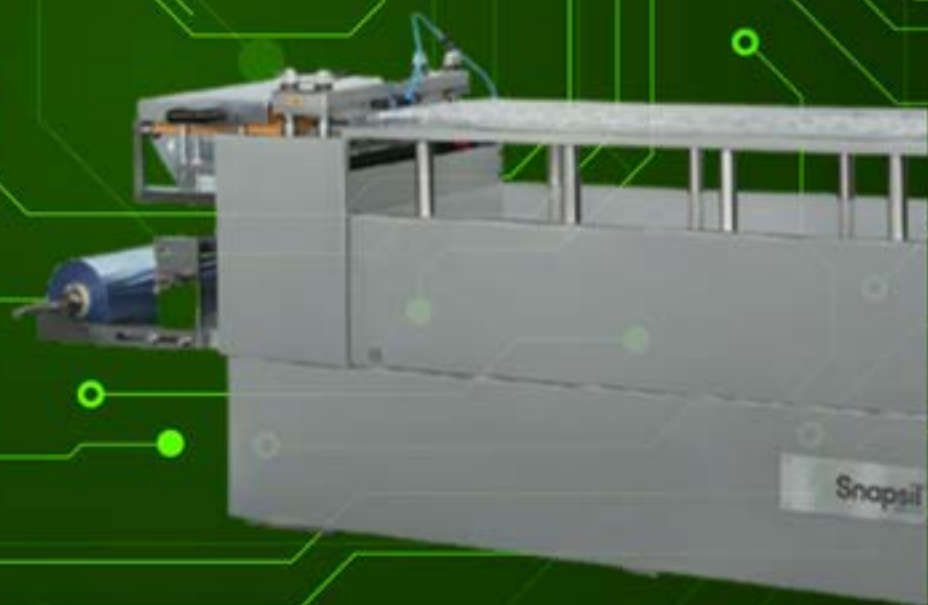

Snap Packs for Injectables

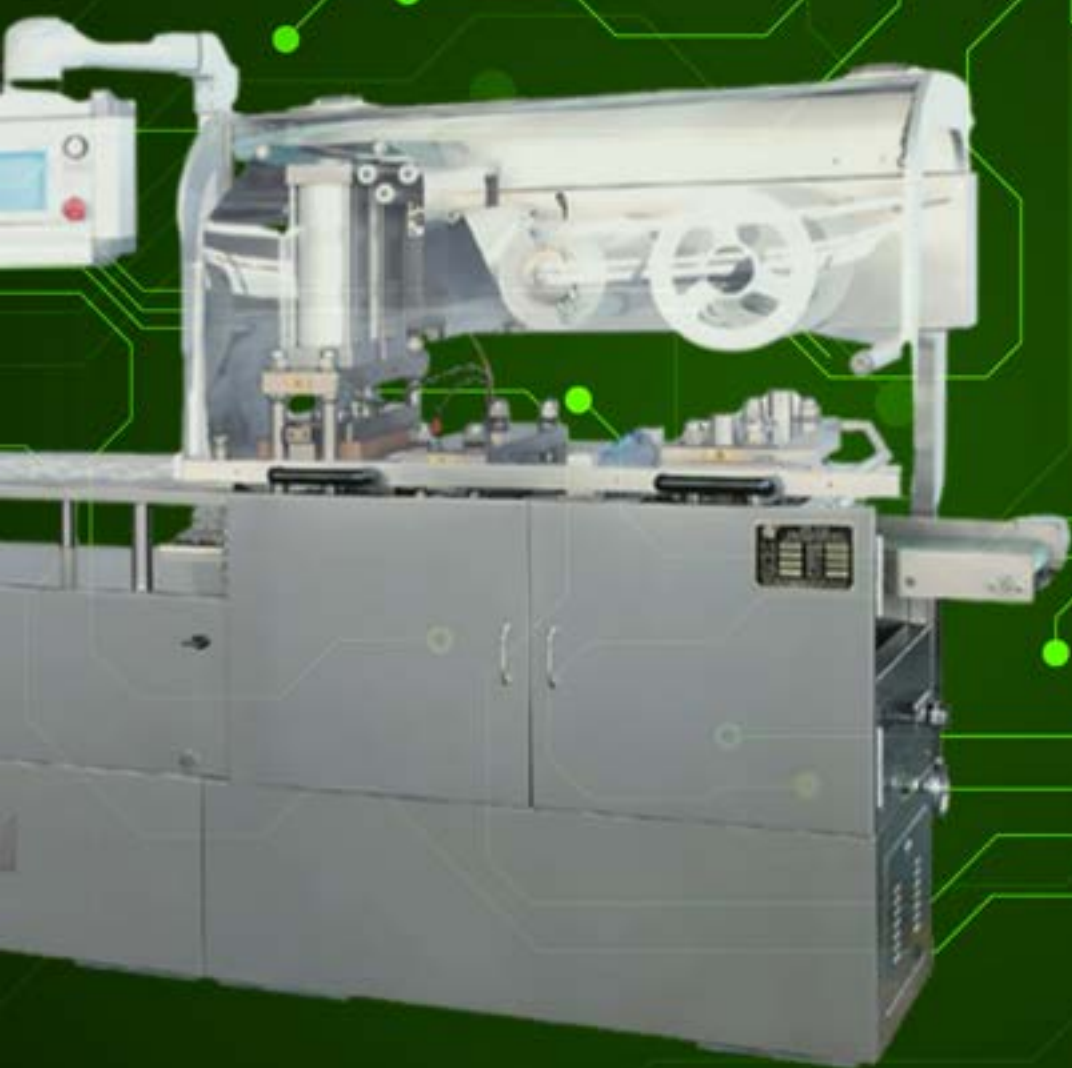

Medical devices, tools and equipment

- Snap to open for easy access to medical tools and equipment.
- Clean, Hygienic and Sterile
- Tamper Evident - ensures product integrity and user confidence

Snapasil[®]

Systems

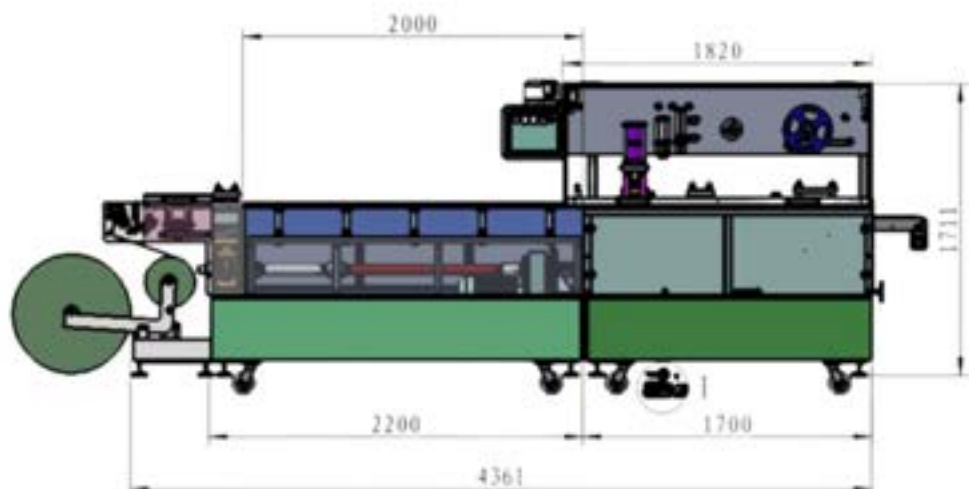

The Snapsil S260 is a fully automatic horizontal form fill seal packing solution for pharmaceuticals, food, and healthcare products.

With PLC control, touch-screen operation, servo traction, and print registration, it delivers precision at speeds up to 22 cycles per minute. Quick mold changes, overload protection, and fault diagnostics ensure efficient, safe operation.

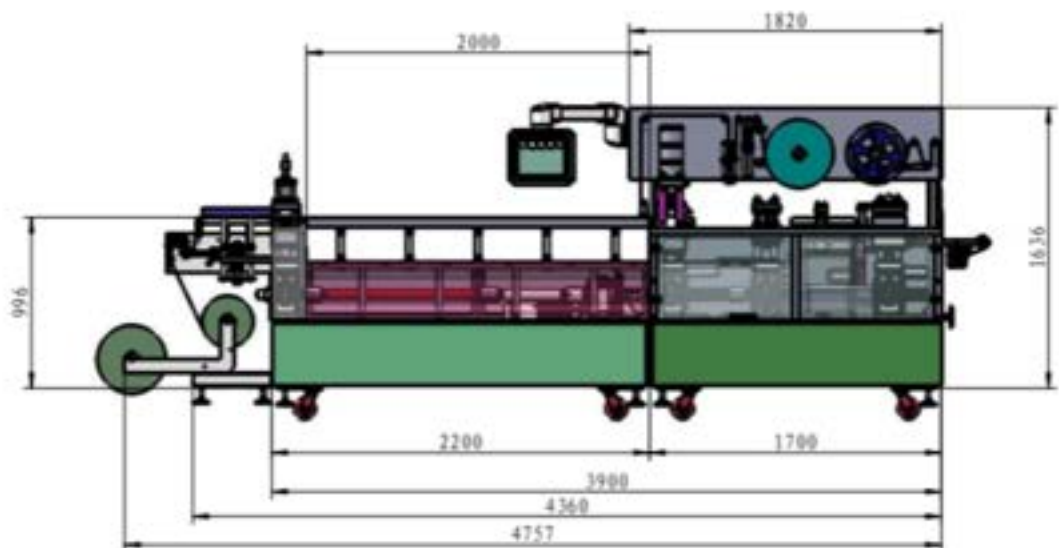

This flexible machine can be adapted to produce high-volume, precision-sealed die-cut packs with high seal integrity and integrated Snapsil opening features.

Specification	Details
Power	1.5 kW main motor, 6.0 kW total
Air Requirements	0.3 m ³ /min
Cooling	Circulating chilled water, 100 L/H
Noise	≤75 dBA
Dimensions	3500×740×1680 mm
Weight	2000 kg
Features	Automatic waste winding, quick mold change (<30 minutes), overload protection, fault diagnostics with alarm/shutdown, protective covers

S260 Snapsil Machine

S350 Snapsil Machine

High- Quality Packaging Materials and Specifications

Snapsil Systems provide approved base web and top lid supply channels to your organization to ensure you have direct pricing.

Snapsil provides all details on materials and specification for your chosen Snapsil solution to ensure the materials are exactly suited to your project.

Granted Patents for your protection

Snapsil has a proven track record of world-firsts and patented breakthroughs in packaging design. Our commitment to innovation has reshaped the way consumers experience products across industries, delivering smarter, safer, and more convenient solutions.

Our patented technologies include:

Snap-opening mechanism – A unique one-handed design for simple, safe, and intuitive opening.

Portion delivery formats – Precise, mess-free serving solutions for food, nutraceuticals, pet care, and healthcare.

Tray and container innovation – Advanced designs that preserve freshness, improve usability, and enhance consumer appeal.

By securing these global patents, Snapsil protects our technologies and safeguards our partners. This ensures every product remains differentiated, exclusive, and shielded from imitation.

We are constantly innovating.

When you partner with Snapsil, you gain access to world-class innovation. From breakthrough designs to advanced, sustainable materials which are constantly evolving and being developed by our material partners. This is all supported and protected by fully granted intellectual property.

At Snapsil, sustainability means considering the full product life cycle. We focus on reducing packaging weight while maintaining product protection and consumer convenience. Snapsil packs are recyclable where the infrastructure exists to collect and process them.

Reduce Packaging Weight: Snapsil solutions can cut packaging weight by up to 75%, lowering carbon footprint without compromising performance.

Reduce Product Waste: Precise portion control and extended shelf life minimize spoilage and waste.

Improve Delivery Efficiency: On-site packaging production and space-efficient design reduce transport costs and emissions.

Material Options: Snapsil offers polymer, fiber-based, recyclable, and compostable options tailored to product protection and end-of-life needs.

We partner globally with leading suppliers to deliver smarter, more sustainable packaging solutions.

Reduce Plastic. Reduce Waste.
One SNAP at a time.

The world leading
ultra-light packaging solution

- Reduce plastic and packaging cost by up to 75%
- Easy snap open patented packaging with many formats
- Enhanced consumer experience

Broad range of consumer benefits:

- **Eco-friendly.** Saving up to 75% of unnecessary plastic.
- **Global leader.** Our patented embedded snap technology enables minimization of plastic.
- **Efficient pack design.** No lids or extra product labels required reducing excess materials.
- **Always fresh.** Tamper evident & barrier technology to ensure safety & health.
- **Dose-accurate.** Dispensing exact portion control minimizing waste
- **Range of formats.** 2ml -250ml suitable for all FMCG and Pharmaceutical applications.
- **Machine System.** Rent or buy through our reseller network.

- **Striking shelf presence** – Unique compact, modern design attracts attention and maximizes retail space.
- **Maximized space efficiency** – Compact formats allow more product per case, reducing shipping costs and improving retail shelf density.
- **Easy handling** – Lightweight cartons and trays reduce labor, simplify stocking, and support retail-ready displays.
- **Shelf-ready design** – Packs arrive in packaging that doubles as an attractive, branded display unit.

Retail Packaging

Shrink wrap retail option.

Standard Retail Display

Counter Display Pack Squeezables

Suited Snapsil Format: Squeezables

Ideal Use:

Designed for point-of-sale counters and trial-size promotions, perfect for showcasing single-serve packs in retail.

Stand up resealable pouch

Suited Snapsil Format: Squeezables, small snap sticks, small bottles

Ideal Use:

Suited for family multipacks or e-commerce orders, providing resealable convenience for larger quantities.

Shelf Ready Cartons

Suited Snapsil Format: Stacked portion packs in cartons

Ideal Use:

Best for supermarket aisles and bulk retailing, offering pre-packed multipacks ready to place directly on shelves.

Shelf Ready Trays

Suited Snapsil Format: Snapsil Bottles

Ideal Use:

For larger bottles and liquids, positioned on retail shelves for grab-and-go shopping.

Branded Dispenser Boxes

Suited Snapsil Format: Stick packs, small bottles, some squeezables

Ideal Use:

For larger bottles and liquids, positioned on retail shelves for grab-and-go shopping.

Upright Stick Display

Suited Snapsil Format: Snap sticks

Ideal Use:

Perfect for checkout counters and specialty retail stores, displaying elongated stick packs in a compact footprint.

Secondary Packaging

Retail Cartons

Suited Snapsil Format: All Snapsil formats

Ideal Use:

Perfect for checkout counters or sampling promotions, these cartons hold single-serve squeezables or sticks for quick grab-and-go sales.

Multi-pack Retail Cartons

Suited Snapsil Format: Squeezables

Ideal Use:

Best suited for multipack retailing in supermarkets and convenience stores, offering family packs or grouped supplements in an easy-to-stock format.

4 Pack Bottle Tray

Suited Snapsil Format: 4 Pack Bottle

Ideal Use:

Designed for larger bottles or tube-style formats, these cartons fit neatly into retail shelves and are ideal for homecare, pet care, or nutraceuticals.

Premium and Custom Line

Premium Hard boxes - Grid

Suited Snapsil Format: Squeezables / Small Bottles

Applications:

- High Value Products (Manuka Honey, Collagen, Probiotics, Cosmetics, etc)
- Premium Gift Box
- PR Packages and Kits

Premium Hard boxes - Inserts

Suited Snapsil Format: Squeezables

Applications:

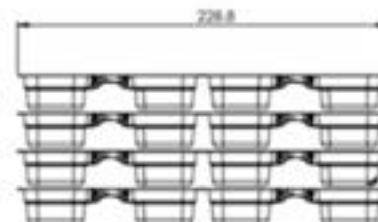

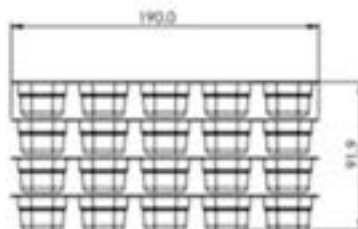

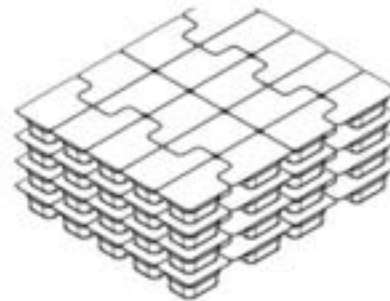

- High Value Products (Manuka Honey, Collagen, Probiotics, Cosmetics, etc)
- Premium Gift Box
- PR Packages and Kits

Custom Secondary Packaging

Snapsil offers customizable secondary packaging designed to fit your brand's needs, from retail-ready displays to premium gift boxes, tailored for your product and your customers.

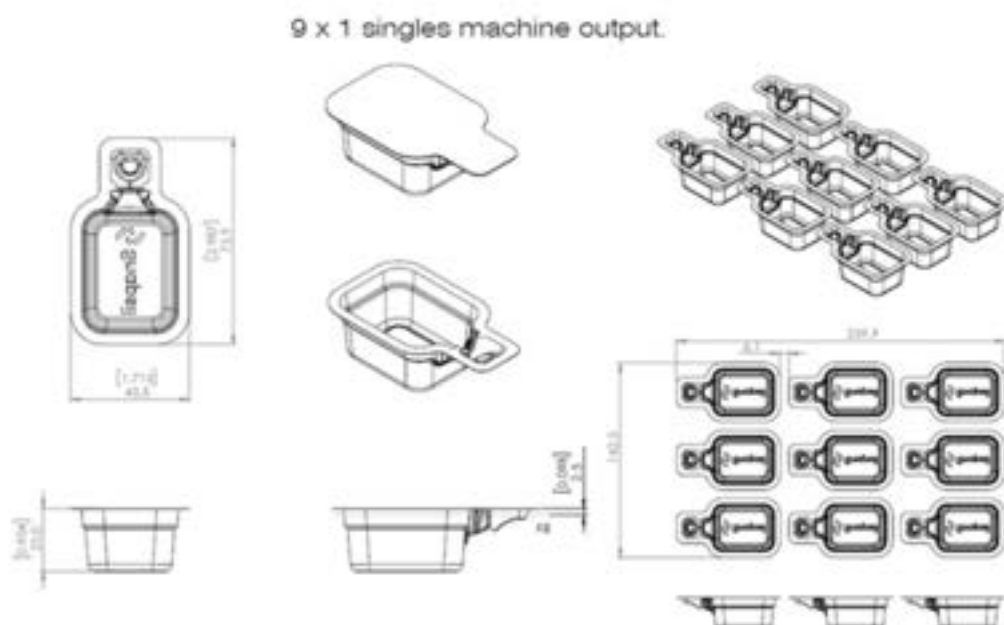

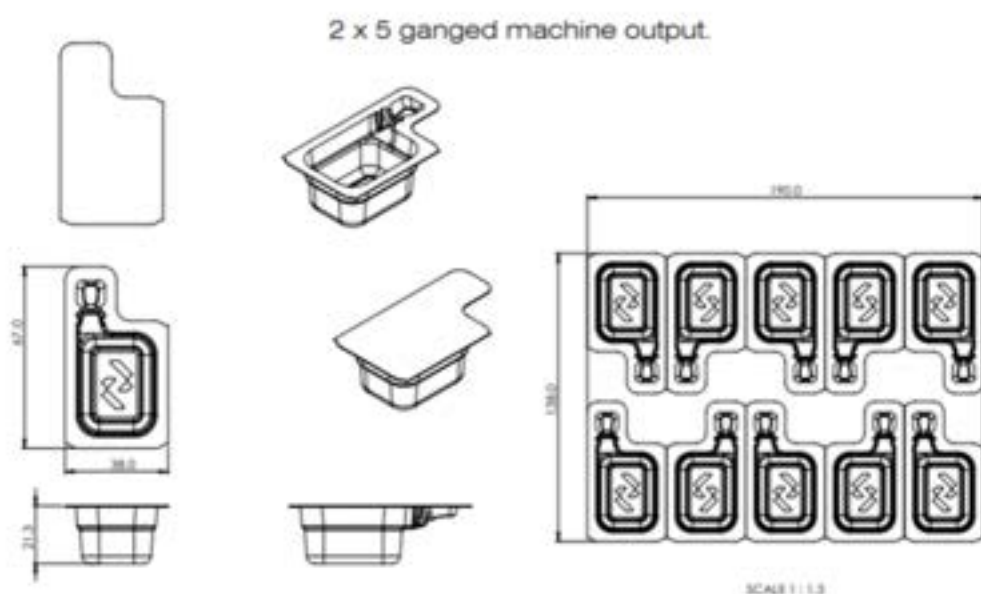

-
- A 3D illustration showing a stack of interlocking concrete slabs. The slabs are grey and have a grid-like pattern of raised edges that interlock with each other. They are stacked on a wooden formwork base, which is shown in a light brown color. The perspective is from an isometric view, showing the top and side of the stack.

Optimal design considerations

- Horizontal Form Fill and Seal efficient manufacturing
- Light-weight to minimize plastic
- Minimized labour on pack line
- Efficient secondary packaging
- Minimized logistics costs
- Optimized sustainability outcomes

Ganged (tagged) versus Single Formed

Why Join the Snapsil Reseller Program?

The Snapsil Reseller Program empowers partners to promote our patented, sustainable packaging system in their region or industry, driving client innovation while growing their own business with full Snapsil support.

Grow your business while bringing smarter, sustainable packaging to the world.

What's unique about Snapsil?

Proven Innovation

Trusted, patented packaging solutions delivering impact across industries.

Expert Support

Get direct access to our R&D, engineering, and sales specialists, helping you customize solutions, accelerate go-to-market, and win more deals.

Winning Tools

Reseller kits, demos, and co-marketing materials designed to help you pitch, sell, and stand out

High Earning Potential

Earn competitive commissions and unlock scalable revenue streams with every closed deal.

Reseller Responsibilities

As a Snapsil reseller, you represent our brand and bring innovation to your market by:

- **Identifying Opportunities** – Connect with brand owners, co-packers, and key decision-makers
- **Showcasing Innovation** – Present Snapsil's packaging formats and value proposition with confidence
- **Driving Engagement** – Organize demos, provide samples, and support pilot trials
- **Guiding Clients** – Assist during evaluations, onboarding, and adoption of Snapsil solutions
- **Sharing Insights** – Gather market feedback and intelligence to fuel continuous improvement
- **Collaborating Closely** – Partner with Snapsil on marketing efforts and technical discussions

Together, we deliver smarter packaging solutions that transform industries.

Our Reseller Program goes beyond technology - it's built for your success.

Program Benefits

Sales Tools

- Demo kits, sample libraries, proposal templates
- Virtual showroom and interactive brochures
- Product videos and use-case presentations

Training & Onboarding

- Product & technology training modules
- Pilot preparation and demo execution coaching
- Competitive selling guidance by industry

Marketing & Ongoing Support

- Co-branded marketing assets and case studies
- Digital campaign collaboration
- Trade show and event participation options
- Access to Snapsil R&D and technical experts
- Regular product updates
- Partner Success Manager assigned to each reseller

How it works

Revenue Model

Grow with us while earning real rewards:

- Commissions on every packaging unit produced
- Bonus payouts from machine implementation fees
- Scalable income as your client base expands

Performance Metrics

We track what matters and support you every step of the way:

- Hit quarterly sales targets with clear goals
- Drive client engagements & pilot programs
- Turn pilots into profitable commercial orders
- Share valuable feedback & market insights
- Stay sharp with Snapsil training & programs

Agreement Structure

Simple, transparent, and built for partnership:

- Defined industry focus & territory
- Clear commission terms & support levels
- Strong confidentiality & IP protections
- Regular reporting cadence & key contacts

Let's Partner

Snapsil is expanding globally, and we're looking for experienced, well-connected partners who can take our technology to new heights.

Contact us to apply:
Partner Portal: www.Snapsil.com/reseller

Let's package the future together.

Scan here to partner with us

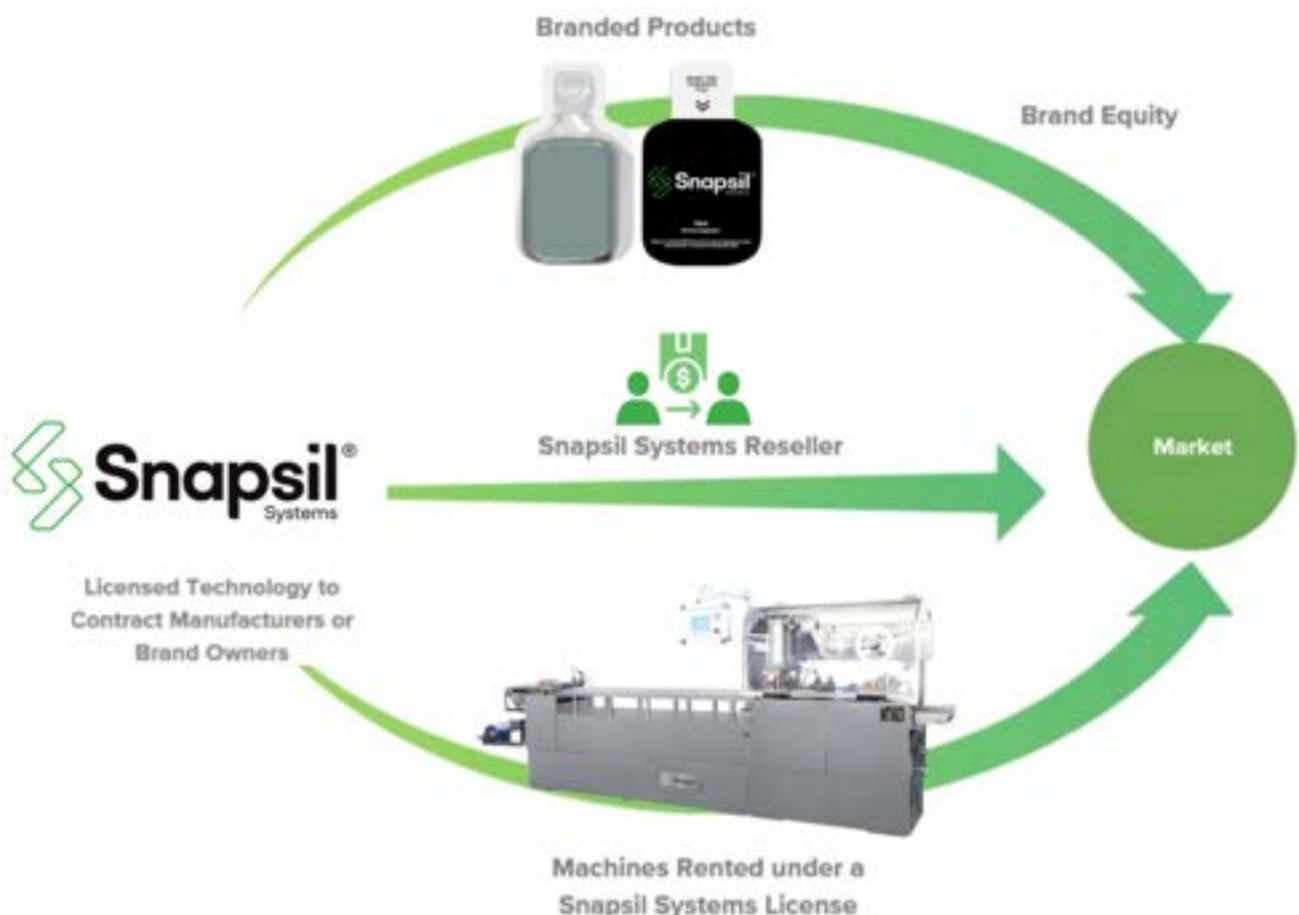

Access world-leading packaging innovation without the burden of heavy upfront investment. Snapsil's co-packing model makes it easy to launch premium, consumer-friendly packaging while protecting your capital and accelerating your time to market.

Benefits

- **No CAPEX** – simple monthly rental
- **Low Entry Costs** – Nominal setup & training fee
- **Flexible Model** – Pay per pack, scale as you grow
- **Patented Technology** – Licensing included in rental
- **Speed to Market** – Systems available in 90 days
- **Brand Value** – Sustainable and Consumer friendly

Return Of Investment at a Glance

- **Lower Upfront Costs** – No big capital spend
- **Reduced Operating Costs** – Less waste, logistics & carbon footprint
- **Boost Sales & Loyalty** – Portion-controlled, consumer-friendly packs
- **Scalable Growth** – Profitability from the first run

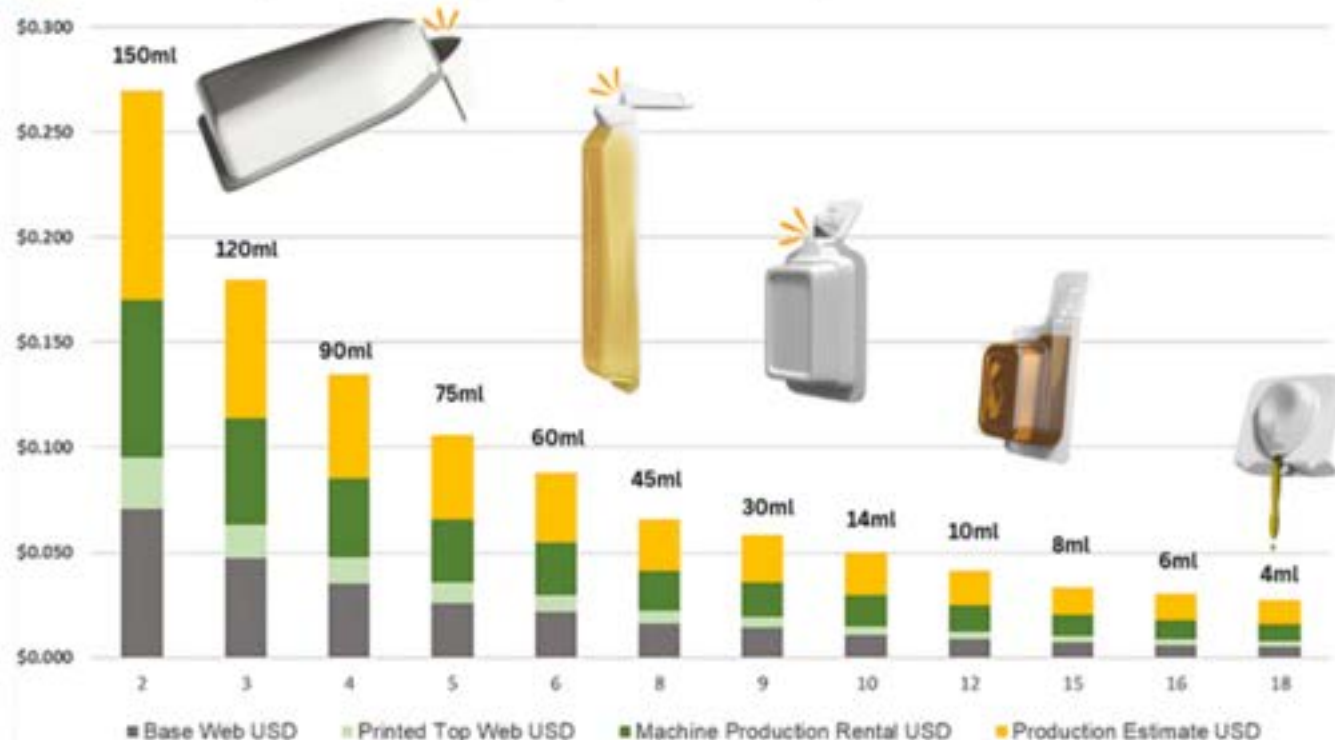

Price Guidelines*

- Guidelines based on 75% machine utilization using the medium commodity tier. Excludes secondary packaging and product costs.
